

## INDULGE IN A HOBBY ROOM

With crafts more popular than ever, the latest storage need is for hobby materials. Instead of squeezing everything into a sewing box or overcrowded cubby, dedicated shelving, drawers and cupboards – with plenty of work space to boot – will create a place for you to focus your passion. These Rialto acrylic-faced MDF units in high-gloss Cappuccino, with modular tiered shelving in Oyster, match a generous 300cm desk area with soft-close drawers, great for a homework area. Available in alternative styles and colours, this layout, from the Lifespace range by Crown Imperial, costs around £3,400. From left: desk units, H72xW43xD65.5cm; L-shaped corner unit, H72xW70xD70cm; two shelves over corner unit, H143xW50xD35.5cm; third shelf unit, H217.5xW50xD35.5cm; fourth shelf unit, H217.5xW47.5xD35.5cm; last shelf unit, H217.5xW50xD18.5cm.
